

Abstract submission

We cordially invite you to submit abstracts for oral and poster presentations related to one of the topics mentioned in the following. Please submit your abstracts online at www.genetics-conference.de, where the submission guidelines and information on the review process can also be found.

32 oral presentations will be selected to be held in the parallel sessions. Furthermore, a poster exhibition will accompany the scientific programme.

All accepted abstracts will be published online in the programme booklet. The three best posters will be awarded with prizes in the amount of 100 EUR, 200 EUR and 300 EUR.

The deadline for abstract submission is Sunday, 28 May 2017.

Abstract topics

- Epigenetics
- Evolution and development
- Microbiomics
- Molecular recognition and communication
- Optogenetics
- Organismic interactions
- Population genetics
- Secondary metabolism

Registration

Please register online at www.genetics-conference.de.

Registration fees

	until 31 July	from 1 August
Regular (GfG-member)	155 EUR	190 EUR

Dear friends and colleagues,
dear members of the
German Genetics Society,

We are pleased to invite you to attend the annual meeting 2017 of the German Society of Genetics, which will be held at the Ruhr-University in Bochum, Germany.

We welcome abstract submissions in all areas of genetics. Main topics covered in plenary and concurrent sessions are epigenetics, evolution and development, microbiomics, molecular recognition and communication, optogenetics, organismic interactions, population genetics, and secondary metabolism.

We have invited leading experts in the respective fields to present their data. Additional emphasis lies on the contribution of younger scientists, who will give short oral presentations being selected from abstract submissions.

There are three more highlights: With the Max Delbrück lecture a renowned scientist will be honored for outstanding work in the field of genetics, and the Award of the Gateff Prize will be awarded for an excellent PhD thesis. Finally, the Anders Award will be given to small groups of self-organised students, who have conducted an outstanding genetic research project. Applications are welcome from supervisors or PhD students.

Bochum with six universities is a City of Science and its central location within Europe makes it easy to get to from all points of the compass.

We invite you to visit our website www.genetics-conference.de, which displays all the necessary tools for easy access to abstract uploading, registration, accommodation, as well as complete information about the scientific programme.

We are looking forward to welcoming you in Bochum!
